

Authorization and appeals kit: Psoriatic arthritis

Resources for healthcare providers

INDICATIONS

COSENTYX® is indicated for the treatment of moderate to severe plaque psoriasis in adult patients who are candidates for systemic therapy or phototherapy.

COSENTYX is indicated for the treatment of adult patients with active psoriatic arthritis.

COSENTYX is indicated for the treatment of adult patients with active ankylosing spondylitis.

IMPORTANT SAFETY INFORMATION

CONTRAINDICATIONS

COSENTYX is contraindicated in patients with a previous serious hypersensitivity reaction to secukinumab or to any of the excipients.

Information and sample letters to help ensure that your communications with health plans are as complete as possible.

Cosentyx[®]
(secukinumab)

How to use this kit

Click on number/field to jump to that section.

This kit provides you with information and sample letters that can help ensure your communications with health plans regarding a prior authorization or appeal are as complete as possible. These samples are intended to provide you with examples of the type of information that will usually be required. You can refer to the checklist on the first page of each section as you develop and complete your own letters. The more completely and accurately that you meet a plan's requirements for prescribing COSENTYX®, the more quickly you will be able to help your patients receive therapy.

1	Sample Prior Authorization (PA) Request Letter (from patient and physician) Many plans require prior authorization for biologics and will have PA forms available on their websites. This section provides suggestions for submitting a PA request, along with a sample letter.	3
<hr/>		
When a prior authorization or formulary exception request is denied, you can submit an appeal.		
2	Sample Prior Authorization Appeals Letter (from patient and physician) This type of letter may be used when a prior authorization request has been denied.	7
3	Sample Letter of Medical Necessity Some plans require that a Letter of Medical Necessity be submitted along with a PA appeal to support the choice of COSENTYX over one of the formulary agents. This letter also should be submitted along with a Formulary Exception Request Letter and with a Tiering Exception Request Letter.	11
4	Sample Formulary Exception Request Letter (from patient; signed by patient and physician) This type of letter may be used when COSENTYX is not listed on a formulary or when it has an NDC block. While the plan may provide a form on its website that can be used to apply for an exception, you can refer to this sample to see the type of information that is typically required.	14
5	Sample Tiering Exception Request Letter (from patient; signed by patient and physician) This type of letter may be used when COSENTYX is on formulary, but on a tier with a high co-pay. Based on medical necessity, you can appeal to the plan to consider the drug as if it were a preferred branded agent for that patient in order to reduce the co-pay and help alleviate a patient's financial burden. This may be most useful for patients on plans that require coinsurance.	18
6	Sample Dosage Appeals Letter (from patient; signed by patient and physician) This type of letter may be used to appeal a decision on a dosing regimen.	22
<hr/>		
If an initial appeal is rejected: There can be multiple levels of appeal. Each of the appeal letters can be adapted for higher level appeals. After a second-level appeal, additional adjudication may include review by an independent noninsurance-affiliated external review board or hearing. Please refer to the plan's specific appeals guidelines, which are often available on their website.		
<hr/>		
If there is a denial after multiple levels of appeal: The patient may be referred to charitable foundation programs for financial assistance.

1 Suggestions for writing a Prior Authorization Request Letter

Many plans require prior authorization for biologics and will have their own prior authorization (PA) forms available on their websites. This section provides general guidance on submitting a PA form and provides sample letters.

Tips

All COSENTYX® prior authorization forms should be completed and submitted to the plan by your office.

Your Novartis Strategic Account Manager or Patient Services Liaison may be able to provide you with PA requirements for specific plans and pharmacy benefit managers (PBMs). Benefits verifications performed by the Customer Engagement Center (CEC) and specialty pharmacies can also identify prior authorization requirements, step therapies, and form requirements.

Fax the prior authorization request to the health plan.

Fax the service request form (SRF) to the CEC at [1-844-666-1366](tel:1-844-666-1366).

Many specialty pharmacies have the ability to submit a test claim to a payer to confirm coverage of COSENTYX.

If the physician anticipates that a step therapy specified by the plan will not be well tolerated by the patient, an appeal to bypass that requirement may be submitted to the payer. [Click here for a sample Letter of Medical Necessity \[3\]](#).

Many payers will allow up to three levels of appeal of prior authorization denials. The third level of appeal may include review by an independent noninsurance-affiliated external review board or hearing.

[Click here for a sample Prior Authorization Appeals Letter \[2\]](#).

Checklist

- Include the patient's name, policy number, and date of birth
- Document that all PA requirements of the plan have been met
- Document that the patient has satisfied any step-therapy requirements. For step-therapy exception requests, add wording included on page 6
- Review suggested letter formats that follow for additional guidance
- Refer to the health plan's website to locate their PA form. Your Strategic Account Manager or Patient Services Liaison may also be able to assist you

Note: Some plans may require the use of their own letter templates for prior authorization requests.

See sample letters on following pages.

[Address] [DOB]
[City, State, Zip]

To whom it may concern:

This letter is being submitted for the prior authorization of COSENTYX for [patient name, ID and group number] for the treatment of psoriatic arthritis [ICD-10 Dx code].

If you are appealing a **step edit requirement**, insert additional text here from page 6.

Patient's history, diagnosis, current condition, and symptoms:

- Document that patient does not have active tuberculosis*
- Medical records indicating the patient's diagnosis and the date of diagnosis
- Number of areas of tenderness or pain other than in a joint (ie, enthesitis); number of entire fingers or toes with swelling (ie, dactylitis)
- Patient's assessment of pain, patient global assessment, physician global assessment, Health Assessment Questionnaire Disability Index, high-sensitivity C-reactive protein levels (hs-CRP)
- Comprehensive list of previous treatment therapies used
- Confirmation that the patient has not received adequate results from previous treatments
- Rationale for selecting COSENTYX
- Summary of recommendation

Supporting references:

(Provide clinical support for your recommendation. This can be clinical trial data from the COSENTYX package insert.)

The ordering physician is [physician name, NPI #]. The prior authorization decision may be faxed to [fax #], or mailed to [physician business office address]. Please also send a copy of the coverage determination decision to [patient name].

Sincerely,

[Physician name and signature]

Suggestions for writing a Prior Authorization Appeals Letter

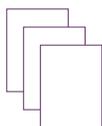

This type of letter can be used when a prior authorization request has been denied. There can be multiple levels of appeal. Please refer to the plan's specific appeals guidelines.

This letter comes from the **patient** and the **physician**. It should be submitted along with a copy of the patient's relevant medical records and a Letter of Medical Necessity. [Click here for a sample Letter of Medical Necessity](#) ³.

Checklist

- Include the patient's name, policy number, and date of birth**
- Acknowledge that you are familiar with the company's policy and state the reason for the denial**

- Patient's medical records**

Patient history, diagnosis, current condition, and symptoms

Include copies of relevant medical records (payers may want to see if any infections, allergies, or comorbidities are present)

- Document severity of condition**

Familiarize yourself with the severity scoring methods preferred by the health plan

When appropriate, attach a photo of the affected area

- List previous therapies**

Explain why each therapy was discontinued, and specify the duration of therapy for each agent

- Explain why formulary preferred agents are not appropriate**
(if they have not already been listed as previous therapies)

- Provide clinical support for your recommendation**

This can be clinical trial data from the COSENTYX[®] package insert.

- If required, attach a **Letter of Medical Necessity**

[Click here for a sample Letter of Medical Necessity](#) ³.

Note: At each stage of appeal, health plans may require that their own forms (or the universal forms that are required by some states) be submitted along with your letter.

See sample letters on following pages.

patient is **not** already taking COSENTYX® (secukinumab)

[Date]
[Medical Director] Re: [Patient Name]
[Insurance Company] [Policy Number]
[Address] [DOB]
[City, State, Zip]

To whom it may concern:

We have read and acknowledge your policy for the responsible management of drugs in this category. We are writing to request that you reconsider your denial of coverage of COSENTYX for the treatment of psoriatic arthritis [ICD-10 Dx code]. The reason given for the denial was [state reason from insurer's letter]. After reviewing the denial letter, we continue to feel that COSENTYX [dose, frequency] is appropriate therapy. Listed below is a summary of the relevant clinical history.

If this is a 2nd- or 3rd-level appeal, after first sentence, insert additional sentence from page 10.

*May be required by some plans.

Patient's history, diagnosis, current condition, and symptoms:

- Document that patient does not have active tuberculosis*
- Medical records indicating the patient's diagnosis and the date of diagnosis
- Number of areas of tenderness or pain other than in a joint (ie, enthesitis); number of entire fingers or toes with swelling (ie, dactylitis)
- Patient's assessment of pain, patient global assessment, physician global assessment, Health Assessment Questionnaire Disability Index, high-sensitivity C-reactive protein levels (hs-CRP)
- Comprehensive list of previous treatment therapies used
- Confirmation that the patient has not received adequate results from previous treatments
- Rationale for selecting COSENTYX
- Additional clinical support for the appeal
- Summary of recommendation

Please contact my office by calling [insert phone number] for any additional information you may require in support of this appeal. I look forward to your timely approval.

Sincerely,

[Patient name and signature]

[Click here for full Prescribing Information, including Medication Guide.](#)

If this is a **2nd- or 3rd-level appeal**, add this after first sentence of letters on the preceding pages.

This is my [Insert level of request] prior authorization appeal. A copy of the most recent denial letter is included along with medical notes in response to the denial.

For 2nd-level and 3rd-level appeals, be sure to include:

- The original letter of denial
- Specific medical notes in response to the denial

(A third level of appeal may include review by an independent noninsurance-affiliated external review board or hearing.)

[Click here for Important Safety Information.](#)

[Click here for full Prescribing Information, including Medication Guide.](#)

3 Suggestions for writing a Letter of Medical Necessity

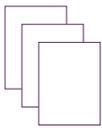

Some plans require that a Letter of Medical Necessity be submitted along with a Prior Authorization Appeal to support the choice of COSENTYX® over agents that are on formulary. [Click here for a sample Prior Authorization Appeals Letter](#) ²

You may find that this checklist and the sample letters that follow are a helpful guide to preparing that letter. A Letter of Medical Necessity should also accompany a Formulary Exception Request Letter as well as a Tiering Exception Request Letter. [Click here for a sample Formulary Exception Request Letter](#) ⁴. [Click here for a sample Tiering Exception Request Letter](#) ⁵.

Checklist

Include the patient's name, policy number, and date of birth

Support your recommendation with the following:

Patient history, diagnosis, current condition, and symptoms

Include copies of relevant medical records (payers may want to see if any infections, allergies, or comorbidities are present)

Document severity of condition

Familiarize yourself with the severity scoring methods preferred by the health plan

When appropriate, attach a photo of the affected area

List previous therapies

Explain why each therapy was discontinued, and specify the duration of therapy for each agent

Explain why formulary preferred agents are not appropriate
(if they have not already been listed as previous therapy)

Provide clinical support for your recommendation

This can be clinical trial data from the COSENTYX package insert

To close the letter, summarize your recommendation, and provide a phone number should any additional information be required

See sample letters on following pages.

Suggestions for writing a Formulary Exception Request Letter

This type of letter can be used when COSENTYX® is not listed on a formulary or if it has an NDC block. While the plan may provide a form on its website that can be used to apply for an exception, you can refer to the sample provided in this kit to see the type of information that is typically required.

This letter comes from the **patient** and is also signed by the **physician**. It should be submitted along with a copy of the patient's relevant medical records and a Letter of Medical Necessity. [Click here for a sample Letter of Medical Necessity](#) [3].

The patient's letter should include:

Checklist

- The patient's name, policy number, and date of birth**
- The patient's diagnosis**
- List of previous therapies**
- The main reasons in support of a formulary exception for COSENTYX for this patient**
- The patient's relevant medical records**
- If this is a 2nd-level or 3rd-level appeal**, include the letter of denial and medical notes in response to the denial
- If required, attach a **Letter of Medical Necessity**
[Click here for a sample Letter of Medical Necessity](#) [3].

Note: At each stage of appeal, health plans may require that their own forms (or the universal forms that are required by some states) be submitted along with your letter.

NDC = National Drug Code.

See sample letters on following pages.

[Click here for Important Safety Information.](#)

[Click here for full Prescribing Information, including Medication Guide.](#)

If this is a **2nd- or 3rd-level appeal**, add this after first sentence of letters on the preceding pages.

This is my [Insert level of request] formulary exception appeal. A copy of the original denial letter is included along with medical notes in response to the denial.

For 2nd-level and 3rd-level appeals, be sure to include:

- The original letter of denial
- Specific medical notes in response to the denial

[Click here for Important Safety Information.](#)

[Click here for full Prescribing Information, including Medication Guide.](#)

5 Suggestions for writing a Tiering Exception Request Letter

This type of letter can be used when COSENTYX® is on formulary but is on a tier with a high co-pay. Based on medical necessity, a patient can appeal to the plan to consider the drug as if it were a preferred branded agent for that patient in order to reduce the co-pay and help alleviate the financial burden. This may be most useful for patients on plans that require coinsurance. This letter comes from the **patient** and is also signed by the **physician**.

Checklist

- Include the patient's name, policy number, and date of birth
- Include the patient's diagnosis
- Patient should include a statement of financial hardship
- List previous therapies
- Include relevant medical records
- If this is a 2nd-level or 3rd-level appeal, include the letter of denial and medical notes in response to the denial
- If required, attach a **Letter of Medical Necessity**
Click here for a sample Letter of Medical Necessity [3](#).

Note: At each stage of appeal, health plans may require that their own forms (or the universal forms that are required by some states) be submitted along with your letter.

See sample letters on following pages.

[Click here for Important Safety Information.](#)

[Click here for full Prescribing Information, including Medication Guide.](#)

If this is a **2nd- or 3rd-level appeal**, add this after first sentence of letters on preceding pages.

This is my [Insert level of request] tier exception appeal. A copy of the original tier exception denial letter is included along with medical notes in response to the denial.

For 2nd-level and 3rd-level appeals, be sure to include:

- The original letter of denial
- Specific medical notes in response to the denial

[Click here for Important Safety Information.](#)

[Click here for full Prescribing Information, including Medication Guide.](#)

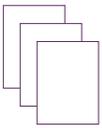

6 Dosage Appeals Letter

Some plans may not approve loading doses of COSENTYX® for psoriatic arthritis unless an appeal is submitted by the patient. And for patients with psoriatic arthritis without coexisting moderate to severe plaque psoriasis who continue to have active disease, plans may also require an appeal for use of the 300-mg dose. This section provides general guidance on submitting an appeal for an alternate dosing regimen. This letter comes from the **patient** and is also signed by the **physician**.

Checklist

- The patient's name, policy number, and date of birth
- Explain why you are requesting approval to initiate therapy in your patient with a loading dose of 150 mg at Weeks 0, 1, 2, 3, and 4
- Explain why a monthly dosage of 300 mg is warranted

Support your recommendation with the following:

Patient history, diagnosis, current condition, and symptoms

Include copies of relevant medical records (payers may want to see if any infections, allergies, or comorbidities are present)

- Document severity of condition** (familiarize yourself with the severity scoring methods preferred by the health plan)
- Provide clinical support for your recommendation**
- To close the letter, summarize your recommendation, and provide a phone number should any additional information be required**
- If required, attach a **Letter of Medical Necessity**
Click here for a sample Letter of Medical Necessity [\[3\]](#).

Note: At each stage of appeal, health plans may require that their own forms (or the universal forms that are required by some states) be submitted along with your letter.

See sample letters on following pages.

Re: [Patient Name]

[Policy Number]

[DOB]

To whom it may concern:

I am a member of [enter name of health plan]. I have been approved for initiation of COSENTYX without a loading dose. According to my doctor, my condition warrants initiation with a loading dose.

This letter is being submitted to request approval to initiate COSENTYX for the treatment of psoriatic arthritis [ICD-10 Dx code] with a 5-week loading dose for [patient name, ID and group number]: 150 mg at Weeks 0, 1, 2, 3, and 4.

My physician has provided the following:

Patient's history, diagnosis, current condition, and symptoms:

- Document that patient does not have active tuberculosis*
- Medical records indicating the patient's diagnosis and the date of diagnosis
- Number of areas of tenderness or pain other than in a joint (ie, enthesitis); number of entire fingers or toes with swelling (ie, dactylitis)
- Patient's assessment of pain, patient global assessment, physician global assessment, Health Assessment Questionnaire Disability Index, high-sensitivity C-reactive protein levels (hs-CRP)
- Comprehensive list of previous treatment therapies used
- Rationale for initiating COSENTYX with a 5-week loading dose followed by 150 mg every 4 weeks

*May be required by some plans.

Insert clinical support.

The ordering physician is [physician name, NPI #]. The prior authorization decision may be faxed to [fax #], or mailed to [physician business office address]. Please also send a copy of the coverage determination decision to [patient name].

INDICATIONS

COSENTYX® is indicated for the treatment of moderate to severe plaque psoriasis in adult patients who are candidates for systemic therapy or phototherapy.

COSENTYX is indicated for the treatment of adult patients with active psoriatic arthritis.

COSENTYX is indicated for the treatment of adult patients with active ankylosing spondylitis.

IMPORTANT SAFETY INFORMATION

CONTRAINDICATIONS

COSENTYX is contraindicated in patients with a previous serious hypersensitivity reaction to secukinumab or to any of the excipients.

WARNINGS AND PRECAUTIONS

Infections

COSENTYX may increase the risk of infections. In clinical trials, a higher rate of infections was observed in subjects treated with COSENTYX compared to placebo-treated subjects. In placebo-controlled clinical trials in patients with moderate to severe plaque psoriasis, higher rates of common infections such as nasopharyngitis (11.4% versus 8.6%), upper respiratory tract infection (2.5% versus 0.7%), and mucocutaneous infections with candida (1.2% versus 0.3%) were observed with COSENTYX compared with placebo. A similar increase in risk of infection was seen in placebo-controlled trials in patients with psoriatic arthritis and ankylosing spondylitis. The incidence of some types of infections appeared to be dose-dependent in clinical studies.

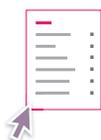

Exercise caution when considering the use of COSENTYX in patients with a chronic infection or a history of recurrent infection.

Instruct patients to seek medical advice if signs or symptoms suggestive of an infection occur. If a patient develops a serious infection, the patient should be closely monitored and COSENTYX should be discontinued until the infection resolves.

Pre-treatment Evaluation for Tuberculosis

Evaluate patients for tuberculosis (TB) infection prior to initiating treatment with COSENTYX. Do not administer COSENTYX to patients with active TB infection. Initiate treatment of latent TB prior to administering COSENTYX. Consider anti-TB therapy prior to initiation of COSENTYX in patients with a past history of latent or active TB in whom an adequate course of treatment cannot be confirmed. Patients receiving COSENTYX should be monitored closely for signs and symptoms of active TB during and after treatment.

Please see additional Important Safety Information on page 27.

[Click here for full Prescribing Information, including Medication Guide.](#)

IMPORTANT SAFETY INFORMATION (cont)

Inflammatory Bowel Disease

Caution should be used when prescribing COSENTYX® (secukinumab) to patients with inflammatory bowel disease. Exacerbations, in some cases serious, occurred in patients treated with COSENTYX during clinical trials in plaque psoriasis, psoriatic arthritis, and ankylosing spondylitis. In addition, new onset inflammatory bowel disease cases occurred in clinical trials with COSENTYX. In an exploratory study in 59 patients with active Crohn's disease, there were trends toward greater disease activity and increased adverse events in the secukinumab group as compared to the placebo group. Patients who are treated with COSENTYX should be monitored for signs and symptoms of inflammatory bowel disease.

Hypersensitivity Reactions

Anaphylaxis and cases of urticaria occurred in patients treated with COSENTYX in clinical trials. If an anaphylactic or other serious allergic reaction occurs, administration of COSENTYX should be discontinued immediately and appropriate therapy initiated.

The removable cap of the COSENTYX Sensoready® pen and the COSENTYX prefilled syringe contains natural rubber latex which may cause an allergic reaction in latex-sensitive individuals. The safe use of the COSENTYX Sensoready pen or prefilled syringe in latex-sensitive individuals has not been studied.

Vaccinations

Prior to initiating therapy with COSENTYX, consider completion of all age appropriate immunizations according to current immunization guidelines. Patients treated with COSENTYX should not receive live vaccines.

Non-live vaccinations received during a course of COSENTYX may not elicit an immune response sufficient to prevent disease.

MOST COMMON ADVERSE REACTIONS

Most common adverse reactions (>1%) are nasopharyngitis, diarrhea, and upper respiratory tract infection.

Please see additional Important Safety Information on page 26.
